Solutions!

ゲームで業務を変える、新たな可能性への挑戦

## Transforming Work into a New Frontier through Games

Just like E-sports, industries are actively integrating games into business operations.

By introducing gamification into repetitive tasks, we've achieved increased productivity and enhanced employee motivation.

We have pioneered the release of "RealFocus<sup>®</sup>," an enterprise game unlike any other in the world, and have completed multiple international patent applications.

As pioneers in this field, we possess the essential patents and technical know-how.

We are seeking partners to jointly explore new possibilities.

共に新たな可能性を切り開くパートナーを募集しています。

「Experience RealFocus<sup>®</sup>: Actual Gameplay Screen」
